

AABURCO, INC.

REVERSIBLE TABLETOP SHEETER MODEL 644

Features

- Reversible sheeting action.
- Both tables have positive drive at all times, eliminating the need for touching the dough once it has been placed on the conveyor belts.
- 19" (483mm) long sheeting roller.
- Removable belt system reduces clean up time.
- Produces dough sheets for higher yields and better uniformity, shape and weight.
- Free-moving in-feed belt automatically prevents tearing or "doubling up" of dough.
- Outputs adjustable from 6" (152mm) to 24" (610mm) widths.
- 1/64" (0.5mm) to 1 3/16" (30mm) adjustable roller gap.
- Coated rollers help prevent sticking
